

# 50Ω Adapters SMA Male - SMA Male

Part Number: SMA-MMH

Electrical Specifications at 25°C, all specifications are subject to change without notice at any time. Rev. B

|                              |                            |
|------------------------------|----------------------------|
| Frequency Range              | DC-27 GHz                  |
| VSWR (Max.)                  | 1.15:1                     |
| Durability (Min.)            | 1000 Cycles                |
| Insulation Resistance (Min.) | 5000 MΩ                    |
| Operating Temperature        | -65°C ~ +165°C             |
| Body Material                | Stainless Steel Passivated |
| Center Conductor             | Brass Gold Plated          |
| Dielectric                   | PTFE                       |
